

St Blasius Shanklin CE Primary Academy – French Curriculum overview

Intent

At St Blasius French introduces children to other cultures and deepens their understanding of the world. Pupils will be able to express their ideas and thoughts in another language and understand and respond to native speakers.

Implementation

Lessons are sequenced so that prior learning is considered and opportunities for revision of language and grammar are built in. In ensuring high standards of teaching and learning in French, we implement a curriculum that is progressive throughout Key Stage 2. We teach the National Curriculum, supported by a clear skills and knowledge progression. This ensures that skills and knowledge are built on year by year and sequenced appropriately to maximise learning for all children and ensuring an appropriate level of challenge. By the end of year 6, children will have made substantial progress in French. The teaching provides an appropriate balance of spoken and written language and lays the foundations for further foreign language teaching at key stage 3. It enables pupils to understand and communicate ideas, facts and feelings in speech and writing, focused on familiar and routine matters, using their knowledge of phonology, grammatical structures and vocabulary.

Due to moving from Spanish teaching to French in September 2020, and the impact of Covid lockdowns, we are operating a rolling programme with all current year groups starting at Autumn 2 year 3 (All about me) in September 2021.

Impact

The learning of a foreign language provides a valuable educational, social and cultural experience for all pupils. Pupils develop communication and literacy skills that lay the foundation for future language learning. They develop linguistic competence, extend their knowledge of how language works and explore differences and similarities between a foreign language and English. Learning another language raises awareness of the multilingual and multicultural world and introduces an international dimension to pupils' learning, giving them an insight into their own culture and those of others.

The learning of a foreign language provides a medium for cross-curricular links and for reinforcement of knowledge, skills and understanding developed in other subjects.
